NEW!

Electric Boiler Panels

ELBP50TS7 model shown

Features:

- 11kW or 18kW electric boiler options.
- UPS15-58 primary pump.
- Pressure relief valve, strainer, and automatic air vent.
- Expansion tank connection.
- StatLink® 6 Zone Base Module.
- 24V(ac) transformer.
- Electrical box for 240V(ac) connections.
- Available with 3, 5, 6, 7, or 8 loop TwistSeal manifolds to feed hot water from the electric boiler to your radiant heating system.

Benefits:

- All-in-one panel design saves contractors time and labor.
- All components are covered by a single warranty.
- StatLink module allows for easy addition of thermostats and actuators for zoning.
- Manifold flow meters allow for quick balancing of loops.
